

Sujin Park, M.A.

9500 Gilman Dr, La Jolla, CA 92093
sup031@ucsd.edu [personal website](#)

RESEARCH INTERESTS

Precision Health, Biomarker, Neuropsychiatric Disorder, Mental Health

EDUCATION

University of California San Diego, USA 2024-Present
 Ph.D. in Cognitive Science (Advisor: Dr. Deanna Greene | Developmental Cognitive Neuroscience Lab)

Sungkyunkwan University, South Korea
 M.A. in Psychology (Advisor: Dr. Justin Minue Kim | Human Affective Neuroscience Lab) 2022-2024
 B.A. in Political Science and Diplomacy & Psychology, *magna cum laude* 2017-2022

PUBLICATIONS

Peer-reviewed Journal Articles (* Equal author contribution)

1. Demeter DV*, Feigelis M*, D'Andrea CB, Ali SA, Baim AR, Koithan E, Stearns J, Zreik S, Ahern J, **Park S**, Chang SE, Miller RL, Hampton JM, Schlaggar BL, Marek S, Gordon EM, Dosenbach NUF, Gratton C, Greene DJ. (accepted) Precision functional mapping of the individual child brain: Characterizing brain networks in a densely-sampled pediatric dataset. *Nature Neuroscience*. [[Preprint](#)]
2. Ali SA, Demeter DV, Baim AR, Koithan EM, Feigelis M, Zreik S, Ahern J, Chang SE, **Park S**, Gordon EM, Marek S, Greene DJ. (2026) Benchmarking Functional Brain Network Organization in Childhood and Its Similarity to Adults. *Frontiers in Neuroimaging*; 5, 1818662. [[Full Text](#)]
3. **Park S**, Patterson G, Gudiño OG, Kim MJ, Kim P. (2026) Identifying subtypes based on environmental and neurobiological risk and resilience factors of postpartum maternal mental health. *Translational Psychiatry*; 16, 47. [[Full Text](#)]
4. Jeon J, Yoo C, **Park S**, Kim B, Yoo J, Kim MJ, Park D. (2025) Grit buffers against stress-induced physiological response. *Personality and Individual Differences*; 247, 113390. [[Full Text](#)]
5. Yoo J*, Kim B*, **Park S**, Jeon J, Yoo C, Kim MJ, Park D. (2025) Gritty Heart: Improved Heart Rate Variability Markers of Adaptive Physiological Response in Grit. *Psychophysiology*; 62(5), e70064. [[Full Text](#)]
6. **Park S**, Park D, Kim MJ. (2023) Similarity in functional connectome architecture predicts teenage grit. *Social Cognitive and Affective Neuroscience*; 18(1), nsad047. [[Full Text](#)]
7. Yoo C*, **Park S***, Kim MJ. (2022) Structural connectome-based prediction of trait anxiety. *Brain Imaging and Behavior*; 16(6), 2467-2476. [[Full Text](#)]: featured on the journal cover

FELLOWSHIPS AND GRANTS

Doctoral Student Representative Precision Medicine Research, \$155,000 2026-2028
Project Title: Precision-fMRI Guided Biomarkers of Tourette Syndrome in Youth
 California Initiative to Advance Precision Medicine (CIAPM)

International Fellowship, selected as an Alternate Candidate 2026
 American Association of University Women (AAUW)

KFAS Overseas PhD Scholarship , \$13,000/year Korea Foundation for Advanced Studies (KFAS)	2024-2029 (Expected)
KFAS Overseas PhD Scholarship candidate , ₩5,000,000 (\$5,000) Korea Foundation for Advanced Studies (KFAS)	2023-2024
Fulbright Graduate Student Program , selected as an Alternate Candidate (declined) Fulbright Korea	2023
SKKU Lab Mentoring Program Research Fund , ₩1,000,000 (\$1,000) Sungkyunkwan University	2022-2023

AWARDS AND SCHOLARSHIPS

Brain Korea 21 (BK21) Research Fellow , Sungkyunkwan University	2022-2024
Full Scholarship for Graduate School (Merit-based) , Sungkyunkwan University	2022-2024
Grand Prize , Research Matters Graduate Research Competition, Sungkyunkwan University Research Title: <i>Structural Connectome-based Prediction of Trait Anxiety</i>	2022
Grand Prize , 2021-2 Co-Deep Learning Project competition, Sungkyunkwan University Research Title: <i>Social Isolation Stress and the Brain: Connectome-based Predictive Modeling Neuroimaging Research</i>	2021
1st Prize , 2021-1 Co-deep Learning Project Competition, Sungkyunkwan University Research Title: <i>Association between the Structural Integrity of the Amygdala-PFC Pathways and Maladaptive Emotion Regulation Strategies</i>	2021

PRESENTATIONS

Conference Posters (* Equal author contribution)

- Park S**, Demeter DV, Garcia M, Koithan EM, Ahern J, Ali SA, Baim AR, Chang SE, Greene DJ (2026). Development of the Somato-Cognitive Action Network (SCAN): Using Precision Functional Mapping in Children and Adults. *Flux Congress Annual Meeting*, La Jolla, USA.
- Kaplan E, Chang SE, **Park S**, Pooni M, Mungai T, Baim A, Ahern J, Ali SA, Ahn JHB, Hodapp S, Reiner G, Friedman J, Cazares C, Schallmo M, Voytek B, Conelea C, Wang S, Greene DJ (2026). Aperiodic neural activity as a marker of excitation/inhibition balance in children with Tourette Syndrome. *Cognitive Neuroscience Society*, Vancouver, Canada.
- Ali SA, Baim AR, Chang SE, Ahern J, **Park S**, Conelea C, Wang S, Greene DJ (2025). A multimodal approach to brain-body interactions in Tourette Syndrome: Preliminary Evidence from Comprehensive Behavioral Intervention for Tics (CBIT). *Society for Neuroscience*, San Diego, USA.
- Park S**, Chang S, Ali SA, Ahern J, Baim AR, Koithan EM, Zreik S, Demeter DV & Greene DJ (2025). Characterizing functional brain network integration in the basal ganglia and thalamus in children with Tourette syndrome. *Flux Congress Annual Meeting*, Dublin, Ireland.
- Demeter DV, Zreik S, **Park S**, Feigelis M, Ali SA, Koithan EM, Baim AR, Ahern J, Chang SE, Gordon EM, Greene DJ (2025). Inter-individual differences in connectivity of the somato-cognitive action network (SCAN) in a precision mapping child sample. *Flux Congress Annual Meeting*, Dublin, Ireland.
- Park S**, Patterson G, Kim MJ & Kim P (2024). Subtyping Environmental and Neurobiological Risk and

Resilience Factors of Maternal Mental Health During the Perinatal Period. *Social & Affective Neuroscience Society*, Toronto, Canada.

7. **Park S***, Yoo C* & Kim MJ (2023). Linking neuroimaging-based features of normative structural and functional brain development in adolescents. *Developmental Affective Neuroscience Symposium*, Pittsburgh, PA, USA.
8. **Park S** & Kim MJ (2023). Similar Functional Connectome Architecture Predicts Teenage Grit. *Social & Affective Neuroscience Society*, Santa Barbara, CA, USA.
9. Yoo C, **Park S**, Ryu H, Jeong E, Lee S & Kim MJ (2022). Structural connectome-based prediction of social isolation stress. *Korean Society for Cognitive & Biological Psychology*, Virtual Conference.

OTHER EXPERIENCES

- Clinical Research Intern** | Korea Children and Youth Psychological Counseling Center 2020-2021
- Instructed sentence completion tests (SCT)
 - Developed and organized the Weekly Social Skills Improvement Program activities for children with neurodevelopmental disorders (e.g., attention-deficit-hyperactivity disorder, tic disorder, autism spectrum disorder), wrote weekly report as a group co-leader
- Volunteer** | Seoul National University Children's Hospital 2019
- Guided reception, payment and administrative procedures

SKILLS

Statistical Analysis: R, Python, MATLAB, SPSS

Neuroimaging and Behavioral Analysis: Connectome Workbench, fMRIprep, AFNI, FSL, MRtrix3, Psychopy

Languages: Korea (native), English (full professional proficiency)

TEACHING ASSISTANTSHIPS

UC San Diego

Decision Making in the Brain (COGS180) | Instructor: Dr. Lucy Lai WI26

Neurobiology of Cognition (COGS17) | Instructor: Dr. Christine Johnson WI25, SP25, FA25

Sungkyunkwan University

Introduction to Psychology (GEDI008-01) | Instructor: Dr. Justin Minue Kim SP23

Brain and Mind (PSY3040) | Instructor: Dr. Justin Minue Kim FA22

Neuroscience of Human Behavior (PSY3041) | Instructor: Dr. Justin Minue Kim SP22

MENTORING

Graduate Mentor | Colors of the Brain (<https://colorsofthebrain.com/>), USA 2025-Present

- Mentoring undergraduate students at UC San Diego for the 10-week summer research project and honors thesis program (mentees: Mariana Garcia, Aisha Cinar)

Mentee | Korean-American Women in Science and Engineering (KWise), USA 2026-Present

- Member of KWise Global Cross Mentoring Program (San Diego chapter) for women in STEM for mentoring
