

Sujin Park, M.A.

9500 Gilman Dr, La Jolla, CA 92093
sup031@ucsd.edu [personal website](#)

RESEARCH INTERESTS

Biomarker, Neuropsychiatric Disorder, Health Diseases

EDUCATION

University of California San Diego, USA 2024-2029 (Expected)
 Ph.D. in Cognitive Science (Advisor: Dr. Deanna Greene)

Sungkyunkwan University, South Korea
 M.A. in Psychology (Advisor: Dr. Justin Minue Kim) 2022-2024
 B.A. in Political Science and Diplomacy & Psychology, *magna cum laude* 2017-2022

PUBLICATIONS

Peer-reviewed Journal Articles (* Equal author contribution)

1. **Park, S.**, Patterson, G., Gudiño, O. G., Kim, M. J., Kim, P. (in press). Identifying subtypes based on environmental and neurobiological risk and resilience factors of postpartum maternal mental health. *Translational Psychiatry*.
2. Jeon, J., Yoo, C., **Park, S.**, Kim, B., Yoo, J., Kim, M. J., Park D. (2025). Grit buffers against stress-induced physiological response. *Personality and Individual Differences*. [[Full Text](#)]
3. Yoo, J. *, Kim, B. *, **Park, S.**, Jeon, J., Yoo, C., Kim, M. J., & Park, D. (2025). Gritty Heart: Improved Heart Rate Variability Markers of Adaptive Physiological Response in Grit. *Psychophysiology*, 62(5), e70064. [[Full Text](#)]
4. **Park, S.**, Park, D., & Kim, M. J. (2023). Similarity in functional connectome architecture predicts teenage grit. *Social Cognitive and Affective Neuroscience*, 18(1), nsad047. [[Full Text](#)]
5. Yoo, C. *, **Park, S. ***, & Kim, M. J. (2022). Structural connectome-based prediction of trait anxiety. *Brain Imaging and Behavior*, 16(6), 2467-2476. [[Full Text](#)]: featured on the journal cover

Unpublished Manuscripts

1. Demeter, D. V., Feigelis, M., Badke D'Andrea, C., Ali, S. A., Baim, A. R., Koithan, E., Stearns, J., Zreik, S., Ahern, J., **Park, S.**, Chang, S. E., Miller, R. L., Hampton, J. M., Schlaggar, B. L., Marek, S., Gordon, E. M., Dosenbach, N. U. F., Gratton, C., Greene, D. J. (under review). Precision functional mapping reveals less inter-individual variability in the child vs. adult human brain. [[Preprint](#)]
2. Ali, S. A., Demeter, D. V., Feigelis, M., Zreik, S., Baim, A. R., Koithan, E. M., Ahern, J., Chang, S. E., **Park, S.**, Marek, S., Gordon, E. M., & Greene, D. J. (in prep). Cross-age reproducibility of functional brain

network organization in childhood and adulthood.

3. Baim, A. R., Zreik, S., Ahern, J., Chang, S. E., Ali, S. A., Koithan, E. M., **Park, S.**, Feigelis, M., Demeter, D. V., & Greene, D. J. (in prep). Precision functional mapping in children with Tourette syndrome: A feasibility study.

FELLOWSHIPS AND GRANTS

Fellowship for International Ph.D. students , \$13,000/year KFAS (Korea Foundation for Advanced Studies)	2024-2029 (Expected)
Fellowship for International Ph.D. program candidates , ₩5,000,000 (\$5,000) KFAS (Korea Foundation for Advanced Studies)	2023-2024
Fulbright Graduate Student Program , selected as an Alternate Candidate (declined) Fulbright Korea	2023
SKKU Lab Mentoring Program Research Fund , ₩1,000,000 (\$1,000) Sungkyunkwan University	2022-2023

AWARDS AND SCHOLARSHIPS

Grand Prize , Research Matters Graduate Research Competition, Sungkyunkwan University Research Title: <i>Structural Connectome-based Prediction of Trait Anxiety</i>	2022
Grand Prize , 2021-2 Co-Deep Learning Project competition, Sungkyunkwan University Research Title: <i>Social Isolation Stress and the Brain: Connectome-based Predictive Modeling Neuroimaging Research</i>	2021
1st Prize , 2021-1 Co-deep Learning Project Competition, Sungkyunkwan University Research Title: <i>Association between the Structural Integrity of the Amygdala-PFC Pathways and Maladaptive Emotion Regulation Strategies</i>	2021
Brain Korea 21 (BK21) Research Fellow , Sungkyunkwan University	2022-2024
Full Scholarship for Graduate School (Merit-based) , Sungkyunkwan University	2022-2024

PRESENTATIONS

Conference Posters (* Equal author contribution)

1. Kaplan E, Chang S, **Park S**, Cazares C, Schallmo M, Greene D, Conelea C, Mungai T, Voytek B, Wang S (2026). Aperiodic neural activity as a marker of excitation/inhibition balance in children with Tourette Syndrome. *Cognitive Neuroscience Society*, Vancouver, Canada.

2. Demeter DV, Zreik S, **Park S**, Feigelis M, Ali SA, Koithan EM, Baim AR, Ahern J, Chang SE, Gordon EM, Greene DJ (2025). Inter-individual differences in connectivity of the somato-cognitive action network (SCAN) in a precision mapping child sample. *Flux*, Dublin, Ireland.
3. **Park S**, Chang S, Ali SA, Ahern J, Baim AR, Koithan EM, Zreik S, Demeter DV & Greene DJ (2025). Characterizing functional brain network integration in the basal ganglia and thalamus in children with Tourette syndrome. *Flux*, Dublin, Ireland.
4. **Park S**, Patterson G, Kim MJ & Kim P (2024). Subtyping Environmental and Neurobiological Risk and Resilience Factors of Maternal Mental Health During the Perinatal Period. *Social & Affective Neuroscience Society*, Toronto, Canada.
5. **Park S***, Yoo C* & Kim MJ (2023). Linking neuroimaging-based features of normative structural and functional brain development in adolescents. *Developmental Affective Neuroscience Symposium*, Pittsburgh, PA, USA.
6. **Park S** & Kim MJ (2023). Similar Functional Connectome Architecture Predicts Teenage Grit. *Social & Affective Neuroscience Society*, Santa Barbara, CA, USA.
7. Yoo C, **Park S**, Ryu H, Jeong E, Lee S & Kim MJ (2022). Structural connectome-based prediction of social isolation stress. *Korean Society for Cognitive & Biological Psychology*, Virtual Conference.

Regional Presentations (* Equal author contribution)

1. **Park S***, Yoo C* & Kim MJ (2023). Linking neuroimaging-based features of normative structural and functional brain development in adolescents. Center for Neuroscience Imaging Research Workshop, Suwon, Korea.
2. **Park S** & Kim MJ (2022). Similar Functional Connectome Architecture Predicts Teenage Grit. Center for Neuroscience Imaging Research Workshop, Suwon, Korea.
3. Yoo C, **Park S**, Ryu H, Jeong E & Lee S (2021). Social Isolation Stress and the Brain: Connectome-based Predictive Modeling Neuroimaging Research. Sungkyunkwan University Co-Deep Learning Presentation, Seoul, Korea.

CLINICAL EXPERIENCES

Korea Children and Youth Psychological Counseling Center	2020-2021
Research Intern; instructed sentence completion tests (SCT), developed and organized group activities for the Weekly Social Skills Improvement Program, wrote weekly report as a group co-leader, participated in case conferences	
Seoul National University Children's Hospital	2019
Volunteer; guided reception, payment and administrative procedures	

RELEVANT TECHNICAL SKILLS

Statistical Analysis: R, Python, MATLAB, SPSS

Neuroimaging and Behavioral Analysis: Connectome Workbench, fMRIPrep, AFNI, FSL, MRtrix3, Psychopy

TEACHING ASSISTANTSHIPS**UC San Diego**

Neurobiology of Cognition (COGS17)

WI25, SP25, FA25
